EXPERIENCE

Freelance Web Developer 2020 - 2023 remote

Successfully created and customized WordPress websites, ensuring a seamless user experience.

- Created and configured themes and plugins to enhance website functionality.
- Developed and implemented new design and functionality using css, js, PHP and Elementor
- Made new strategies to ensure optimal performance, security, and SEO compliance.

IT Administrator 2019 - 2020 Schnittker Möllmann Partners (SMP) Berlin, Germany

My responsibilities encompassed a diverse range of tasks, including providing comprehensive software and hardware support to optimize system performance.

- Utilized Bash scripting to automate routine tasks.
- Oversaw the management of resources and compliances on the Azure cloud platform.
- Managed user accounts, permissions, and access controls in Active Directory and Microsoft Admin Center

Web Developer 2018 - 2022 Staedtepartner Stettin e.V. Freelancer

Led the end-to-end design and development of a dynamic website, taking a hands-on approach by coding a majority of the components from scratch.
